IMPORTANT NOTICE

Ref : CCS/MA1/MO/2023_NT1229
Date : 29th December, 2023
To : All Valued Owners/Tenants
Subject : **Scheduled Electricity Interruption**

Dear Valued Owner/Tenant,

Kindly be informed that there will be a **temporary shutdown** of electricity power supply as per notice by TNB to facilitate their maintenance works.

Block	Affected Areas	Date	Time
Block B	All Units at Block B	05.01.2024 (Friday)	11:00 pm – 07:00 am (8 hours)

Under such circumstances, it is advisable to take preventive measures across your critical facilities and work tools, to mitigate any loss of data in computers or servers. The Management strongly advises to **turn off and unplug sensitive electronic devices such as modems, computers and servers during this exercise.**

You are advised to arrange your own back-up power supply if your equipment/system or fish tank requires uninterrupted power supply to protect the assets in your unit as the Management will not be responsible for any losses, damages or incidents during the disruption of power supply.

For **Card Access doors without standby battery back-up**, the Management recommends that these doors be **manually closed over this period of time.**

During this period, you are advised to keep your mobile phone fully charged and a torchlight handy. If there is an emergency, please use the firefighting staircases.

For any inquiries/emergencies, please do not hesitate to contact below:

Building Manager : 012 – 983 0773 (Ms. Yeang)
Security (Control Room) : 012 – 518 0933

Thank you.

Yours faithfully,

For and on behalf of **Perbadanan Pengurusan Megan Avenue 1**
Management Office
Managing Agent – Crest Consulting Services

At Tenaga Nasional Berhad, serving our customers with reliable supply of electricity is always our top priority. Kindly be informed that this temporary cessation/interruption of electricity supply is necessary in order to perform priority maintenance works on our infrastructure. Should you have further enquiries, kindly contact our CareLine 15454.

Safety Tip: Customers must regard electricity as being live at all times during an outage. Power supply could be restored at any moment.
